AREAS OF INTEREST

- Relational Database Management System
- Artificial Intelligence

TECHNICAL SKILLS

- Operating Systems : Windows 7 & up
- Programming Languages : C, C++, Java,Android
- Database Systems : MySQL
- Web Technologies : HTML,CSS

MINI PROJECTS

Title: Review Management System

Team Size: 3

Technologies used: OOP , Data structures (hash table)

An automation system for managing the final year project review in colleges using object oriented programming and hash table using separate chaining method. The reviewers can update and edit marks and comments easily. The students can view the details of the review like venue , timing and review marks and also suggestions from their guide about the project.

Title: Restaurant Management

Team Size: 3

Technologies used: Java and RDBMS

A Desktop application will be installed on each table in the restaurant and allows the customers to place the orders by selecting from the detailed menu of the application. Menu comprises the foods along with calories of that item and provide health tips to customers regarding that food item. Consumers can review the bill anytime and can take the print of the bill from the table itself.

Title: Medimart

Team Size: 3

Technologies used: Android

We had developed an online pharmacy app. To start shopping ,simply search for medicine customers wish to buy, choose the quantity, attach the prescription if required and place the order.

ONGOING PROJECT

Title: Cold Chain

Team Size: 3

Technologies used: Android & IOT

We are developing an integrated system of Android and IOT for maintaining quality in terms of nutritive value, freshness, taste and appearance of agro-products and continuous monitoring temperature ,bacterial growth and indicating the days left over for delivery which helps in maintaining hygiene and to avoid the wastage of agro-products.
